Projects (Solo):

Automatic Lighting System

- I made an automatic lighting System for any kind of emergency and this system can prevent us from any kind of tragedy
- This system can be used for hospitals or any other emergency places.
- Because of that in case of power cut we can save lives like doctor in OT can continue their operation and we can use in from the solar energy.
- It will be cost efficient also.
- <https://github.com/fahimrafi98/Automatic-lighting-System-DLD->

Personal portfolio website:

- I have built this website by using html, CSS and JavaScript.
- It is a simple user-friendly website dynamic website.
- I have learnt a lots of new stuffs while making this website.
- <https://github.com/fahimrafi98/personal-portfolio>

Hidden treasure:

- It is a fun game; I made this game using java GUI.
- 2 players can play this game and the system will guide the player to make the guesses.
- When a player clicks the boxes, the system will tell whether he won or not and it will also show how far the treasure would be.
- <https://github.com/fahimrafi98/hidden-treasure->

calculator:

- It was a fun project for me and can help us solving simple mathematics.
- It is easy to use and fast.

- <https://github.com/fahimrafi98/Calculator>

TicTacToe game:

- It is fun game and really easy to play.
- 2 players can play this game and I made this game using python.
- <https://github.com/fahimrafi98/TicTacToe-game>

Eshopping: (on going project)

- This is not completed yet
- I am tiring to make an Ecommerce website to make our easier.
- I will try to make it more user friendly and more secure so that people can shop without any kind of tension.

Date or not: (on going project)

- This website is not completed yet.
- It will be a dating website and I will try to make it simpler so that people can use it easily.
- It will be a very dynamic website.

Group projects:

Domination:

- We made this game by using Java Gui and it is a multiplayer game 2 to 4 people can this game.
- Players have to dominate each other can make stacks of tiles then they put tiles on reserve and can use that tile again.
- It is a fun a game and user friendly can run in both windows and mac.

Volunteer Experience:

- Worked as a volunteer in 12th and 13th convocations of BRAC university.
- Worked as a volunteer for the orientation program of

BRA university.

- Volunteer at PORIBORTON KORI to help the poor kids with primary education.
- Worked as a volunteer at HULT PRICE
- Executive of the leadership forum of BRAC University.
- Participation in teen coding with python.
